# CAPABILITY STATEMENT

Del Ro Management is a small business prime contractor that specializes in a wide range of services, including professional services, IT solutions, facilities and construction, transportation and logistics, and industrial products. Founded in September 2023, the company is led by a team with over 20 years of experience implementing technology solutions across various industries such as manufacturing, merchandising, e-commerce, marketing, and business process outsourcing.

As a prime contractor, Del Ro Management has teaming partners that bring additional capabilities to the table. These partners include a Service-Disabled Veteran-Owned Small Business (SDVOSB) that provides expertise in areas like warehouse, storage, and office leasing, as well as partners specializing in cybersecurity and penetration testing services, durable medical equipment (DME) sales and rentals, technology development including artificial intelligence and automation implementation, and chemical manufacturing. With their extensive commercial, industrial, and government contracting experience, these partners enable Del Ro Management to offer a comprehensive suite of services to the U.S. government.

Del Ro Management leverages cutting-edge AI automation tools to streamline business development, boosting efficiency and adhering to industry best practices. With the company's tech-driven approach, combined with its strategic partnerships, positions Del Ro as a forward-thinking and capable prime contractor in the government contracting space.

## OPERATIONS

Offering operations solutions that include workforce recruiting and hiring, program management, data integration and long-term planning. Provide cutting edge synchronization of manpower and tasks.

## SUPPLY CHAIN MANAGEMENT

Vast experience managing a wide array of supply chain tasks aimed at lowering costs, increasing visibility of all assets, and minimizing inventory costs through detailed forecasting of raw materials resulting in optimized inventory turnover.

## FULFILLMENT OPERATIONS

Del Ro Management offers a full array of fulfillment options from pick-packing, to packaging, to delivery to customer. Options include large bulk and smaller, individualized orders.

## INVENTORY AND WAREHOUSE MANAGEMENT

State of the art Warehouse Management System (WMS) allows for optimized and streamlined inventory management tied into accounting, tax, and bin location of all inventories with accurate map of all stored and in-transit inventory.
